## Medisize Group reports solid results in its first year

- 24.9% higher net income of CHF 22.6 million
- 10.7% EBIT increase to CHF 30.1 million
- Sales grow to CHF 249.9 million
- Presenting full year financials, including segment results, on March 27

*Wattwil, March 14, 2007.* **Medisize Group (SWX: MSZN), a leading developer and manufacturer of medical and dental health care consumables, reports a 24.9% gain in net income over the prior year to CHF 22.6 million. Operating profit (EBIT) increased by 10.7% to CHF 30.1 million. While sales and earnings developed as expected in Medisize's dental activities, the medical business had to address and resolve several issues limiting its performance. Based on the promising prospects of the Medisize Group, the Board of Directors of Medisize Holding AG proposes to pay a dividend of 32% or CHF 1.60 for each registered share at CHF 5 par value.**

In its first business year as an independent company listed on SWX Swiss Exchange, Medisize Group reports sales of CHF 249.9 million. This represents an increase of 1.2% over last year. Adjusting reported sales by the sales volume of a Swiss medical distribution company sold prior to January 1, 2006, sales would have increased by 3.2% on a comparable basis. Reported EBIT increased by 10.7% to CHF 30.1 million, resulting in a strengthened EBIT-Margin of 12.0% up from previous year's 11.0%.

While the dental activities of Medisize Group performed well during the year under review, the Group's medical activities fell somewhat short of expectations. Raw material related quality issues encountered at the Irish manufacturing plant at the beginning of the year, the negative impact of the German doctors' strike in the first half-year were compounded by rising raw material costs and customer-induced project delays. Collectively, these factors had a negative impact on sales and earnings in the Medical segment.

Medisize Holding AG will present its full year financial results, including segment reporting for its dental and medical activities, on March 27, 2007, at a joint media and analyst conference in Zürich.
