- **Sales rise 15.3% to CHF 63.6 million**
 - Dental Sales up 20.3% to CHF 38.0 million
 - Medical Sales up 8.5% to CHF 25.5 million

- **Nine-Month-Sales Confirm Full Year Guidance**
 - Medisize Group sales rise 9.2% to CHF 199.8 million
 - Dental sales up 8.5% to CHF 119.1 million
 - Medical sales up 10.2% to CHF 80.7 million

Wattwil, October 31, 2007. Medisize Holding AG (SWX Swiss Exchange: MSZN), an international leader in the development and manufacture of dental and medical consumables, reports a sales increase of 15.3% to CHF 63.6 million for the third quarter of 2007 compared to the prior year, resulting in a 9.2% sales increase to CHF 199.8 million for the first nine months of this year. Medisize Group continues to expect sales of CHF 270 million and an EBIT of CHF 33 million for the full financial year 2007.

Medisize Group experienced a strong third quarter in both business segments. Compared with the same quarter of last year, Group sales increased 15.3% to CHF 63.6 million in the third quarter of 2007, ended September 30, 2007. In line with expectations, this strong quarter resulted in an accelerated sales growth for the first nine months of 9.2% leading to sales of CHF 199.8 million.

The medical operations of Medisize Group increased sales in the third quarter by 8.5% to CHF 25.5 million and closed the first nine months of the year with 10.2% higher sales of CHF 80.7 million. At constant currency rates, the sales increase would have been 6.1% for the first nine months.

The pharma-packaging activities performed at forecast levels and generated solid cash flows and EBIT contribution.

Sales in the Medical Development & Manufacturing (OEM business) slightly exceeded the forecast. New projects contributed to the sales increase in the OEM medical devices business.

Airway Management continues to face fierce competition in the market place and reported lower sales volumes. Concerns over the direction of oil prices and their impact on costs of petro-chemical-based resin products remain a concern for gross profit development.

The activities of Medisize Dental Group reported 20.3% higher sales of CHF 38.0 million for the third quarter. For the first nine months sales increased 8.5% to CHF 119.1 million. At constant foreign exchange rates, the increase would have been 8.1% for the first three quarters. The dental business developed steadily in all market areas, despite the ongoing consolidation in the North-American and European dental distribution networks. Sales to Eastern European, Middle Eastern and also Asian markets again increased considerably. In the US, the Cutting Edge Instruments branded carbide burs business – acquired at the beginning of the year – contributed well to the rising sales figures and Medisize Dental is now also introducing this product range addition in its European markets.
